Simply Unique STORY

"I have always had a creative mind...always visualizing how to match clothes and look for new ways to style. Sometimes what I was visualizing did not exist.

I remember people asking me where I bought my sweaters when I was growing up. The truth is that they couldn't be found anywhere as they were hand-knit by my aunt - sweaters that she was not willing to sell.

That was several years ago.

Now things (and the world) have changed and I was finally able to convince her to help me realize my imagination into a unique knitwear collection..."
